

STORAGE GOODS SOLD AT BIG LOSS

Food Administration Orders Are
Said to Have Aroused
Lack of Confidence.

Chicago, March 5.—The effect of food administration orders relative to disposal of cold storage poultry and eggs entered into yesterday's hearing of the federal trade commission's investigation of the packing house inquiry. H. S. Jones, a poultry, egg and produce dealer, of Chicago, responding to questions by Francis J. Heney, counsel for the commission, testified that "there seems to be a lack of confidence among the trade" in the food administration rules. Mr. Jones told of the experience of his firm, the Schweizer Commission company, in connection with the food administration's rule that cold storage poultry of 1917 should be disposed of Dec. 1, Jan. 1 and March 1, declaring that a stock of small poultry, classed as lights, was sold in obedience with the administration rules, at a loss. The firm has not since restocked its storage house.

"We wouldn't try it again after that experience," he said. "My judgment," said the witness, "is that the trade will take any rule without question, but that since this investigation began the full confidence of the trade has been shaken. If the trade should lack confidence in the honesty of the present investigation by you, Mr. Heney, the Lord only knows what would happen."

"If the present investigation is proved, the trade will go any limit to co-operate."

Armour Methods Shown Up.
Other subjects touched on today include the organization of a campaign of publicity in 1916 to combat the Borden congressional resolution for an investigation of the packing industry; the establishment of a campaign of educational advertising by the Swift and Armour companies—the other three big packers not joining in the project—and the decision of Swift & Co. early last month to make prompt answer to published attacks on the packing industry.

Passing attention was given by Mr. Heney to newspaper comment on a package of toilet supplies and articles having been sent by Armour & Co. to Maj. Gen. E. H. Plummer at the Camp Dodge cantonment, where Armour & Co. were permitted to erect a temporary depot.

The correspondence between Armour officials made reference to the position of the war department that exclusive concessions to private enterprises were not wanted at cantonments.

After the reading of the correspondence, which included a letter from Armour & Co. to its contract department suggesting sending a "little assortment" to the general, Mr. Heney said: "This subject is not introduced for the purpose of reflecting on Gen. Plummer but to show the methods adopted by Armour & Co. in connection with securing government business."

Figures taken from files of various packers were introduced to show the amounts spent for advertising. The Armour totals were:

"For 1915, \$78,144; for 1916, \$579,924, and for 1917, \$952,825."

Witnesses asserted that all the advantages reaped with the big firms and that they could easily do business with smaller gross profit than could smaller firms.

RUMANIANS ACCEPT ARMISTICE CONDITIONS

Berlin, via London, March 5.—"The Rumanians have accepted our armistice conditions," says a formal official communication issued yesterday.

Physicians Explain Why Women Need More Iron in Their Blood Today Than 20 Years Ago

Say Anaemia—Lack of Iron Is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

DR. FERDINAND KING, New York Physician and Medical author, says physicians should prescribe more organic iron—Nuxated Iron—than do supply the iron deficiency. Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City; Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, and other physicians who have thoroughly tested the value of Nuxated Iron.

"Any woman who tires easily, is nervous or irritable, or who has had a miscarriage or who should at once have her blood examined for iron deficiency—administration of simple Nuxated Iron will increase the strength and endurance of weak, nervous, careworn women in from ten to fourteen days' time."

"There can be no strong, healthy, beautiful, rosy-cheeked woman without iron," says Dr. Ferdinand King, a New York physician and Medical Author. "I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby. The muscles lack tone, the hair falls, and the memory fades, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks."

"In the most common foods of America, the starches, cereals, table syrups, condiments, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, eggs, farina, dehydrated corn meal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for the iron deficiency in our food. Therefore, you should supply the iron deficiency in your food by using some form of organic iron. Just as you would use salt when your food has not enough salt."

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice by publication, as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

Dr. T. Alphonsus Wallace, a physician of many years' experience in this country and who has been given many honorary titles in England, said: "I do not make a practice of recommending advertised medicinal products, but I have found Nuxated Iron so potent in nervous,

LINDSAY COLVILLE, SEAMAN

Died Feb. 24, 1918, Aged 17.
A patriot's death, what nobler could be there?
His youthful life forgets a war's alarms
And each dread thing that ever haunts or harms.
For everlasting peace has shown
He sign.
A little while since thou, at school and play,
Or war didst learn the printed part alone
But childhood's fairest years have swiftly flown
And death in darkness doomed the dawning day.
Thy race has given the nation in
Four servants for the strengthening of her cause;
And when the monstrous conflict then shall cease
At last, each patriot shall receive his meed.
O, youthful hero, sleep in hallowed rest,
For God has chosen of His ones
—J. B. NICKLIN, JR.,
Lieutenant, N. A. Camp Meade, Maryland.

TENNESSEE SOLDIERS IN CAMP MAY VOTE

Instructions Sent Out for Information of Republicans at Camp Sevier.

Greenville, S. C., March 5.—Soldiers at Camp Sevier who are members of the republican party and voters in Knox county, Tenn., will have full opportunity to vote in the approaching republican primary to be held at that county for the selection of county officers on Thursday, March 21. Under the law of Tennessee, all registered voters who are absent from the state in the military service are entitled to vote in all primary and general elections, casting their votes by registered mail.

A letter citing the law and giving instructions as to the proper procedure has been written by the commanding general by H. H. Clements, secretary to the republican primary board, who states that he is informed that there are a large number of Knox county men at Camp Sevier. The letter has been published by the military authorities in the form of a memorandum for the information and guidance of all concerned.

Ballots to be used in the election may be obtained by writing the secretary, stating that the writer is a republican voter of Knox county and enclosing 16 cents to cover the expense of mailing him the ballot and instruction card. All such requests must be sent by registered mail.

CONTINUATION OF WAR DEPENDS ON WILSON

Says the Frankfurter Zeitung in Commenting on Recent Speech of Balfour.

Amsterdam, March 5.—The Frankfurter Zeitung, commenting on the recent speech of A. J. Balfour, the British foreign secretary, says: "The decision as to whether the war, with all its horror, shall continue or preliminary discussions regarding the possibility of peace shall begin depends more on President Wilson than the governments of the belligerents."

The government finds some parts of Mr. Balfour's speech deserving of consideration and regards its moderate tone as a welcome sign. It contends that the demand for the evacuation of Belgium and reparation in the case of that country should only be acceded to if the entente is able to force Germany out of Belgium.

"Mr. Balfour ought to know," it adds, "that the maximum concessions which sides can only be reached by negotiations."

LORD LANSDOWNE SEES ADVANCE TO PEACE IN HERTLING'S SPEECH

Four Points of Chancellor's Rejoinder Interpreted by Marquis—Acceptance of President Wilson's Principles Satisfactory "as Far as it Goes," but "We Are Entitled to Scrutinize Manner of Germany's Application of These Principles."

London, March 5.—In the view of the Marquis of Lansdowne, expressed in a letter to the Daily Telegraph, the recent speech of Chancellor Von Hertling marks a perceptible advance in peace discussions. Lord Lansdowne thinks it all the more remarkable because "the speech may be regarded as a kind of rejoinder to the depressing announcement recently made—some of us think rather gratuitously—by the Versailles conference."

Four points of Von Hertling's speech are selected by Lord Lansdowne for comment. First is the chancellor's wish for an intimate meeting of the belligerents. Lord Lansdowne interprets this to mean a small informal meeting of persons authorized to discuss confidentially the possibility of a more formal conference. He refers approvingly to the opinion of Foreign Secretary Balfour that it would be unwise to begin negotiations unless some preliminary agreement exists, and asks how such a preliminary agreement is to be reached without preliminary conversations.

Not Until Foe Is Beaten.
Lord Lansdowne remarks that allied spokesmen now are sternly repudiating Germany's crimes and are submitting demands which are not likely to be conceded until Germany is beaten to her knees while German spokesmen are putting forward inadmissible demands and imputing selfish and aggressive aims to the allies. He continues: "In these circumstances it seems at first sight there is nothing for it but what Count Hertling calls 'adherence to the existing method of dialogue'—the channel and the ocean dialogue, which, after all, may be useful."

The second point is Von Hertling's admission that peace can be discussed on the basis of President Wilson's four principles. The Marquis of Lansdowne is satisfactory as far as goes, but he maintains that "we are entitled to scrutinize the manner in which these principles have been applied by Germany."

The third point is the chancellor's assurance that he would greet joyfully and co-operate gladly with an impartial court of international arbitration. Lord Lansdowne says this statement may be welcomed and recalls that Mr. Balfour made a similar utterance.

Pope Insisted On Evacuation.
The fourth point is Von Hertling's intimation that Germany does not think of retaining Belgium, together with the chancellor's references to the papal note and to the utilization of Belgium as jumping-off ground for Germany's enemies. Lord Lansdowne admits that when read in the light of the chancellor's references to the inference that the chancellor contemplated the interposition on Belgium of terms which would interfere with her independence, but he points out that the material passage in the papal note upon which Von Hertling apparently relies, insists that Germany evacuate Belgium and guarantee her full political, military and economic independence, adding that if such a guarantee is really all the chancellor requires it ought not to be difficult to satisfy him.

STEAMER OF RELIEF
EXPEDITION SUNK
Refugees Report Growing Animosity in Finland Against Sweden Regarding Aland Islands.

Stockholm, March 5.—The Swedish relief expedition returned from Finland yesterday. One of the steamers of the expedition was sunk on the voyage. Refugees from Finland report growing animosity against Sweden among the Finns, who are unwilling to yield the Aland islands to Sweden. The situation in Helsinki is growing worse. The city is without bread and the red guards continue to commit atrocities. The guard has been reinforced by many Russians who fled to Helsinki when the Germans occupied Reval.

TWO LIEUTENANTS OF
AVIATION SCHOOL KILLED
Meet Death in Oklahoma When Gasoline Tank of Their Machine Explodes.

Lawton, Okla., March 5.—Flight Lieutenants Paul and Whitney, from the aerial school at Fort Sill, were killed late yesterday ten miles north of the aviation field when the gasoline tank on their airplane exploded and the machine crashed to earth from a high altitude. The initials and addresses of the two dead aviators could not be secured last night.

Officers at aviation headquarters could not miss Paul and Whitney until 6 o'clock in the afternoon when machines were checked up for the day. A search was instituted and the wrecked machine and its victims were located late last night in the farming district northwest of Fort Sill.

Farmers living in the neighborhood said apparently nothing was wrong with the airplane up to the moment of the accident. Suddenly a report was heard by persons watching the fliers, and pieces of the machine were seen flying in all directions. The main part of the plane, with its two occupants, then went into a nose dive, striking the ground with such force that it was completely demolished and the two lieutenants' bodies badly mangled.

REPUBLICAN MAYORS
ELECTED IN SEVEN CITIES
Two Change From Democratic to Republican Rule in Elections in Maine.

Portland, Me., March 5.—Republican mayors were elected in seven of the nine cities which voted in this state yesterday. Waterville and Bath, which were democratic last year, went republican. The other republican cities are South Portland, Ellsworth, Hallowell, Eastport and Saco. The democratic retained Lewiston and Rockland.

LEADER OF TEAMSTERS'
UNION ARRESTED
Cornelius Shea Charged With Making Disloyal Utterances.

San Francisco, March 5.—Cornelius Shea, who gained nation-wide notoriety a decade ago as the leader of the Chicago teamsters' strike, was arrested yesterday charged with making disloyal utterances. Shea is said to have spoken disloyally when a man from whom he was trying to collect union dues complained that he had bought so many liberty bonds he could not pay his dues.

WHITE GUARDS CAPTURE
LAVIA AND MAETELAE
Vasa, Finland, March 5.—An official communication issued by the white guards announces that forces of the white guards have captured Lavia and Maetelae.

GEORGE PLUNKETT, SON OF
COUNT PLUNKETT, ARRESTED
He and Number of Sinn Feiners Mixed Up in Cattle and Land Raids.

London, March 5.—The Central News reports that George Plunkett, son of Count Plunkett, chairman of the Irish convention, was arrested yesterday with a number of Sinn Feiners in the Bally district in connection with cattle and land raiding exploits.

EDITOR PIERCE ANNOUNCES
FOR LEGISLATIVE TICKET
First Candidate on Ticket From Madison County, Alabama.

(Special to The News.)
Huntsville, Ala., March 4.—J. E. Pierce, editor of the Huntsville Times, is the first man to make an announcement for a place on the legislative ticket from Madison county. Pierce announces that he will make the race as a prohibitionist and will stand for the nomination on the issue of being in favor of the ratification of the prohibition amendment to the federal constitution.

COLD-STORAGE HOLDINGS
OF PORK SHOW INCREASE
Sixty Million Pounds of the Frozen Article on Feb. 1, or 18 Per Cent. Less Than Last Year.

Washington, March 5.—Cold-storage holding of all classes of pork increased during January, 1918, according to the monthly cold-storage reports issued by the bureau of markets, United States department of agriculture. Frozen pork stocks increased 17,728,000 pounds, or 4.7 per cent, during January when storages reported for both December and January. There were 60,301,000 pounds of frozen pork held in cold storages on Feb. 1, 1918, which is 16.3 per cent. less than the stocks reported on the same date last year.

NO RYE FLOUR IN VICTORY
BREAD AFTER APRIL 1
Bakers Are Advised That After That Date Other Substitutes Must Be Used.

Washington, March 5.—Bakers may continue to use rye flour as a wheat flour substitute in Victory bread until March 31, but not beyond that date. In making this announcement the United States food administration advised the

bakers using rye flour as a substitute to secure other wheat flour substitutes to take its place, as no further extension of the period within which rye flour may be used as a substitute will be granted.

In the baking regulation issued Feb. 1 the use of rye flour as a substitute was limited to the period ending March 3. The decision to grant an extension to March 31 was reached because in some sections of the country where other substitutes are not yet available rye flour can be secured.

ARGENTINA ON EVE
OF RADICAL CHANGE
Leading Articles in Newspapers Do Not Indicate That Rupture With Germany Is Imminent.

Buenos Aires, March 5.—Obviously official inspired articles in the newspapers yesterday indicate that Argentina is on the eve of a radical change in front as regards the world war. These articles, however, do not make clear whether a rupture with Germany is to be brought about or whether Argentina's efforts will be confined principally to the purchase and shipping of supplies to the allies. The general belief is that any change on the part of Argentina will be an economic and not a political one. The newspapers argue that Argentina cannot aid the allies with men, but that she can do so with supplies. The government now is treating with American and British diplomats for a treaty covering meat shipments similar to the recently signed cereal convention.

The vote in the congressional election yesterday has not yet been counted, but the leaders of President Irigoyen's party say that the president will have a firm majority in congress.

STOP CALOMEL! TAKE
DODSON'S LIVER TONE

New Discovery! Takes Place of Dangerous Calomel—It Puts Your Liver To Work Without Making You Sick—Eat Anything—It Can Not Salivate—Don't Lose a Day's Work!

I discovered a vegetable compound that does the work of dangerous, sickening calomel and I want every reader of this paper to try a bottle and if it doesn't straighten you up better and quicker than salivating calomel just go back to the store and get your money.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your thirty feet of bowels of the sour bile and constipation poison which is clogging your system and making you feel miserable.

I guarantee that one spoonful of this harmless liquid liver medicine will relieve the headache, biliousness, coated tongue, ague, malaria, sour stomach or any other distress caused by a torpid liver as quickly as a dose of vile, nauseating calomel, besides it will not make you sick or keep you from

a day's work. I want to see a bottle of this wonderful liver medicine in every home here.

Calomel is poison—it's mercury—it attacks the bones, often causing rheumatism. Calomel is dangerous. It sickens—while my Dodson's Liver Tone is safe, pleasant and harmless. Eat anything afterwards, because it can not salivate. Give it to the children because it doesn't upset the stomach or shock the liver. Take a spoonful tonight and wake up feeling fine and ready for a full day's work.

Get a bottle! Try it! If it doesn't do exactly what I say, tell your dealer to hand your money back. Every druggist and store keeper here knows me and knows of my wonderful discovery of a vegetable medicine that takes the place of dangerous calomel.

For sale by Jo Anderson and All Leading Dealers.

CAKE

A delightful cake made entirely of wheat substitutes as designated by the United States Food Administration.

Do your bit at home. Save the wheat for our boys over there.

American Bakeries Company
A. B. C. Bakery

"Mother, why don't you take NUXATED IRON and be strong and well and have nice rosy cheeks instead of being so nervous and irritable and sick and looking as haggard and old—The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks young and rosy and feels just fine."

run-down conditions. That I believe I should know of it. The men and women of today need more iron in their blood than was the case twenty or thirty years ago. This because of the demineralized diet which now is served daily in thousands of homes and also because of the demand for greater resistance necessary to offset the greater number of health hazards, to be met at every turn."

Dr. E. Sauer, a Boston physician, who has studied both in this country and in great European Medical institutions, says: "I am a great believer in Nuxated Iron. If people would only take it when they feel weak or run-down, instead of doing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced there are thousands who might readily build up their red blood corpuscles, increase their physical energy and get themselves into a condition to ward off the millions of disease germs that are almost continually around us. It is surprising how many people suffer from iron deficiency and do not know of it."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York and Westchester County Hospital, says: "Thousands of people are on suffering year after year, and even dying, from all kinds of ill when the real and true cause underlying their condition is simply a lack of sufficient iron in the red blood corpuscles to

enable Nature to transform the food they eat into brain, muscle, tissue and brain. But beware of the old forms of metallic iron which frequently do more harm than good."

"Notwithstanding all that has been said and written on this subject by well-known physicians, thousands of people still insist in dosing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy, but one which is well known to druggists. Unlike the other inorganic iron products, it is easily assimilated, does not injure the stomach, make them black, nor upset the stomach. The manufacturer guarantees successful and entirely satisfactory results to every person who takes it as directed by the directions on the package. It is dispensed in this city by Jo Anderson and all other druggists.—(Adv.)
